

I respectfully urge you to reject Petition 04-160.
I currently listen to Satellite Radio (XM Radio).
This is a pay service that I willingly pay out of pocket to listen to music that I enjoy.
Currently the radio programming offered by the free radio stations play more commercials and less music..
I once timed a station to check on the amount of music actually being played..
I found that the station only played 40 minutes of music and the remaining 20 minutes of nothing but commercials and talk.
On Satellite radio I am able to listen to music and not a bunch of drivel.

I once again urge you to reject petition 04-160.

Thank You
Lawrence Sue
